

Window & Door  
Technology

## Roto Casement & Awning Lock Handles

### LH08

*Vinyl/Fiberglass/  
Composite Aluminum  
Applications*

#### Features & Benefits

- Single and multi-point versions available
- Several configurations to meet most application requirements
- Non-handed design reduces inventory
- Audible "click" signifies the window is locked
- Available in powder-coated and architectural finishes for greater design flexibility

### LH15

*Wood/Fiberglass/  
Composite  
Applications*

#### Features & Benefits

- Connects directly to lock bar with no additional components
- Built-in construction handle
- Single and multi-point versions available
- Available in powder-coated and architectural finishes for greater design flexibility

### LH19

*Vinyl/Fiberglass/  
Composite Aluminum  
Applications*

#### Features & Benefits

- Designed with contemporary aesthetics in mind
- Non-handed design reduces inventory
- Single and multi-point versions available
- Available in powder-coated and architectural finishes for greater design flexibility

### LH20

*Vinyl/Aluminum  
Applications*

#### Features & Benefits

- Zinc alloy lock housing, lever, and fork
- Minimal 11mm projection with flared lever allows easy operation of the handle
- Non-handed multi-point locks (37mm, 44mm) allow easier ordering process
- Handed single-point locks (33mm)
- Brush seal handle plate helps to prevent bug infiltration
- Provides a total of 44mm of travel
- Tactile detent indicates switch from locked/unlocked position
- Available in seven finishes
