

## Roto FlipLock

The Roto FlipLock is an automatic sash lock for single-hung, double-hung, and sliding windows that's easy to install, easy to operate, and highly intuitive. FlipLock's excellent balance and durability combined with its intuitive and sleek design provides you with a superior lock while providing your customers with great comfort, convenience, and security.

FlipLock with pull cord provides easy accessibility for those with disabilities

### Features & Benefits

- The positive action lock, once unlocked and the sash is opened, resets itself, and locks automatically when the sash is closed
- Ease of operation and peace of mind knowing that once the window is closed, it is locked
- Innovative functionality that makes operation of the lock ergonomically friendly
- In the case of arthritic conditions, the lock can be operated with a slim device, thus not requiring extensive finger movement
- Internal mechanism has two springs to maintain balance
- Enhanced durability/cycle performance, reliable and consistent functionality
- Ultimate flexibility to position the lock correctly on various profiles
- Unique breakaway feature – flip lever will stay up unless completely closed
- Acts as a visible indicator that the window is not completely closed, thus not locked
- Meets or exceeds forced entry resistance requirements and hurricane impact testing
- Adds vital elements of security and strength to the overall performance of the window
- Roto pull cord FlipLock provides easy opening without touching lock through attached pull cord
