

## Roto OP06 X-DRIVE Operator

Roto's X-DRIVE casement and awning operators feature a choice of 304 SST or powder coated steel on all exterior components for unparalleled aesthetic design. Two directional fixing is standard on all operators, which secures the operator in two places for a solid connection, pulls in the operator for an optimal seal, and helps reduce water and air infiltration.

Antique Brass - 33

Chrome - 34

Brushed Chrome - 35

ORB - 36

Pewter - 39

Brushed Nickel - 46

### Features & Benefits

- Fully sealed operator provides the flexibility of being used with or without a cover cap
  - It is the only operator available in the market to offer a zinc cover cap option for a one-to-one color match with a zinc crank handle
- Cycle tested to AAMA 901 standards:
  - Architectural grade for dual (highest achievable rating)
  - Commercial grade for awning (highest achievable rating)
  - Heavy commercial grade for split arm and single arm
- Automated manufacturing assembly and patented laser technology assures precise and consistent quality
- 304 SST and powder coated steel available for all operator types: dual arm, narrow dual arm, split arm, single arm, and awning
- Optional cover caps available in several finishes (finishes shown are not meant to be a complete representation)

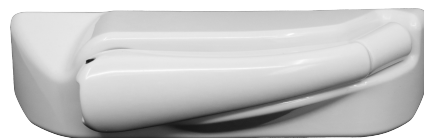

## OP06 Cover Caps & Crank Handles

**X10 Lockout Crank Handle**  
(compatible with X15, X19, and X16 cover caps)

**Easy-Grip Crank Handle**

**Cover Cap & Crank Handle**  
(cover caps available in plastic & zinc)

**X15 Cover Cap & X6 Crank Handle**  
(cover caps available in metal & plastic)

**X16 Metal Cover Cap & X16 Crank Handle**

**X19 Metal Cover Cap & X6 Crank Handle**
