

Roto Square Handle

Roto Square handles offer maximum design freedom with a striking, angular aesthetic optimized for modern architecture. Available in a wide range variants, they combine bold aesthetics with exceptional comfort, delivering a reliable and sophisticated solution for contemporary spaces.

Features & Benefits

- Contemporary, edgy aesthetic
- Ergonomic design for a comfortable grip
- Balance between form & function
- Available for Tilt&Turn windows, Hinged doors, and European-style Sliding Patio Doors (Inowa, Lift, Alversa) made from wood, vinyl, and aluminum
- High-quality materials and precise manufacturing ensure long-term reliability even when subject to intensive use
- Optional VarioFit technology increases flexibility by automatically adjusting spindle length to different window profiles. This allows for decreased storage, optimized processes, and increased efficiency
- Available in standard, push button, secustik, lockable (standard, enhanced, TiltFirst), and comfort variants
